

# TUBMAN TIMES

THANK YOU TO EVERYONE WHO CONTRIBUTED  
TO OUR FOURTH ANNUAL HARVEST FESTIVAL  
AND MADE IT SUCH A SUCCESS!

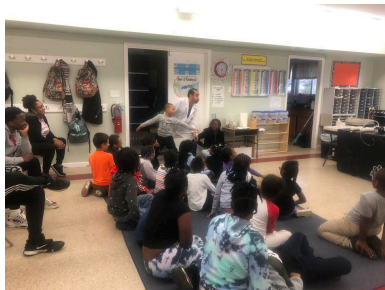

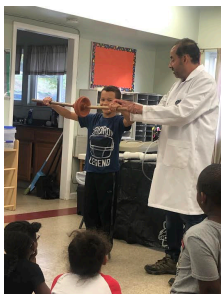

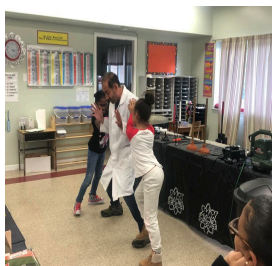

Good company, good food, good fun and great  
conversations!

Thank you to everyone who helped out! A special  
shout out to the students who helped clean up and  
took out the garbage!

## A NEW MAD SCIENCE SHOW

Mad Science returned to the program center on October 18 to present an informative and fun assembly, "Up, Up and Away" which focused on the effects of air pressure. Using regular, everyday items such as toilet plungers, candles, hairdryers and a leaf blower the students participated in different activities in order to understand the effect of air pressure in everyday life. The presentation was very engaging and the children had many opportunities to share their ideas, hypotheses and questions.

## UPCOMING

NOVEMBER 12- 4:00 THE SECRET WORLD OF ROBOTS  
NOVEMBER 21 - HTASC CLOSED

November 8, 2019
