MAKING A MOSAIC OF A UNICORN

Grades 3-5 created a mosaic of a unicorn by using stickers designed by the organization, Let's Stick Together. The unicorn was enormous and was completed over a three week period.

The project fostered a spirit of cooperation and teamwork and the students enjoyed the reward of taking the blank canvas to completion.

INTRODUCING JONAH THRASHER OUR NEW GR.3-5 CLASSROOM TEACHER

We extend a warm welcome to Mr. Thrasher who joined us in January.

Mr. Thrasher has a B.A. in Elementary Education from Arizona State University and recently relocated to Poughkeepsie from Arizona where he has lived for a large part of his life.

Until recently, Mr. Thrasher was a home room teacher in a third grade classroom. He enjoys drawing, fishing and the countryside.

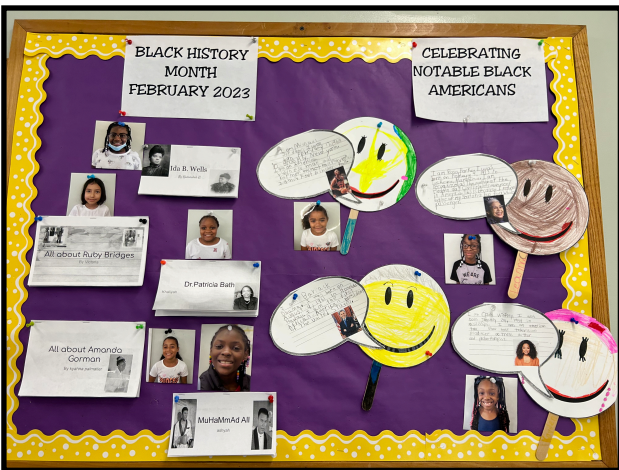

He is excited to join HTASC and hopes to provide an enriching after-school environment for our students to continue their education in a fun and safe place.

Feel free to drop in to meet him during program hours, either with or without children.

FEBRUARY MARKS THE CELEBRATION OF BLACK HISTORY MONTH

Students in both classrooms chose from a list of celebrated Black Americans who have made important contributions to our country in the areas of history, arts, science, sports, politics, and law. Some of these celebrated individuals were Oprah Winfrey, Michael Jordan, Rosa Parks, Martin Luther King Jr., Harriet Tubman, Muhammed Ali, Amanda Gorman, Ruby Bridges, and Mae Jemison.

Grades K-2 recorded their research facts on speech bubbles. Grades 3-5 used Google Slides to organize their facts into a slideshow which they shared with other class members.

K-2 STUDENTS SHOW THEIR RESEARCH
